

Hirata

The Global Production Engineering Company

Company Profile

Hirata Corporation

I. Company Profile

Hirata

Company Name Hirata Corporation

Established December 29, 1951

Headquarters 111 Hitotsugi, Ueki, Kita, Kumamoto, 861-0198 Japan

Representative Yuichiro Hirata, President

Capital 2,633 million yen

Listed Exchange Tokyo Stock Exchange, Prime Market (Code:6258)

Sales 78,443 million yen (Consolidated)
(FY ended March 31, 2023) 60,195 million yen (Non-consolidated)

Number of employees 2,234 (Consolidated)
(as of March 31, 2023) 1,359 (Non-consolidated)

Headquarters (Kumamoto)

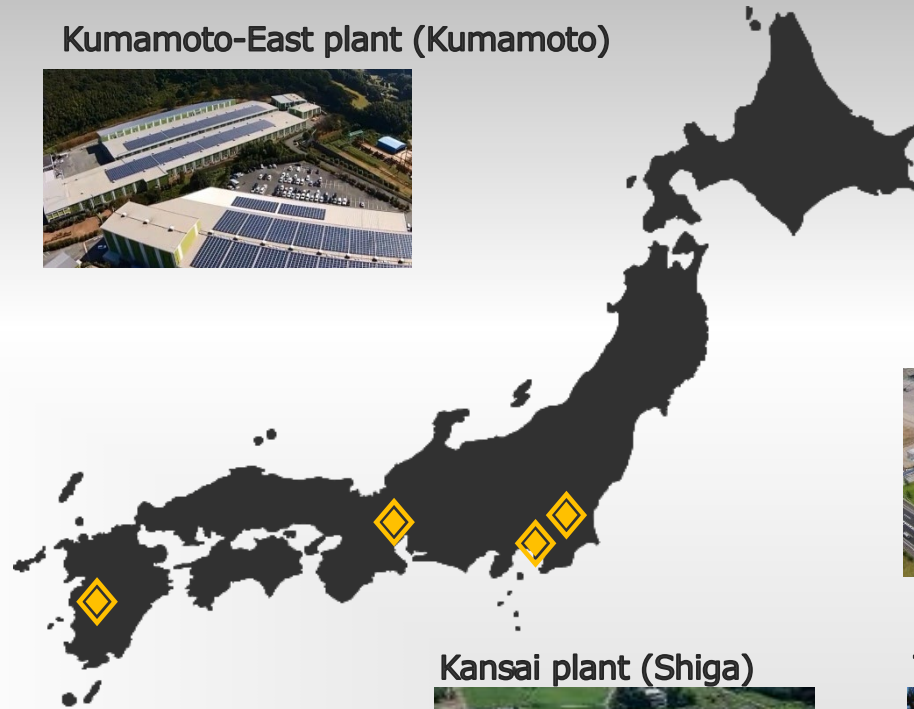

Kumamoto-East plant (Kumamoto)

Kusuno plant (Kumamoto)

Shichijo plant (Kumamoto)

Kanto plant (Tochigi)

Kansai plant (Shiga)

Tokyo office

LOCATION

HQ/Kumamoto plant

Kumamoto-East plant

Kusuno plant

Shichijo plant

Kanto plant

Tokyo office

Product: Major Roles

Semiconductor, Robot: sales, design, development, manufacturing, processing, product control, planning, accounting, administration

Automobile, semiconductor/OLED, Bio : sales, design, manufacturing, product control

Semiconductor : manufacturing

Automotive, semiconductor : manufacturing

Semiconductor, automatic labor-saving equipment : sales, design, manufacturing, product control

Automobile, automatic labor-saving equipment : sales, design, manufacturing, product control

Sales

Taihei Technos Co., Ltd.

HQ: Kumamoto, + three other locations in Kumamoto
Office: Tochigi

Hirata Field Engineering Co., Ltd.

HQ: Kumamoto
Office: Tochigi and Shiga

Trinity Inc.

HQ: Tokyo
Office: Osaka and Kumamoto

Taihei Technos

Hirata Field Engineering

Trinity

Sales of electronic components, designing and manufacturing of production equipment, solar panel construction

Maintenance service for production equipment, sales of spare parts

Loyalty program for corporations and stores

Taiwan

China

China

USA

Germany

USA

Thailand

Singapore

Malaysia

Mexico

Sales, service, and manufacturing in many locales

II. Strengths of Hirata

Hirata

Automotive

Primary customers

- North American automakers
- North American emerging EV Manufacturers
- Domestic electronic components manufacturers
- Domestic battery manufacturers
- etc.

Semi-conductor

Primary customers

- Domestic manufacturing equipment manufacturer
- North American device maker
- Domestic inspection equipment manufacturer
- North American device maker
- Domestic/European substrate manufacturer
- etc.

Other automatic labor-saving equipment

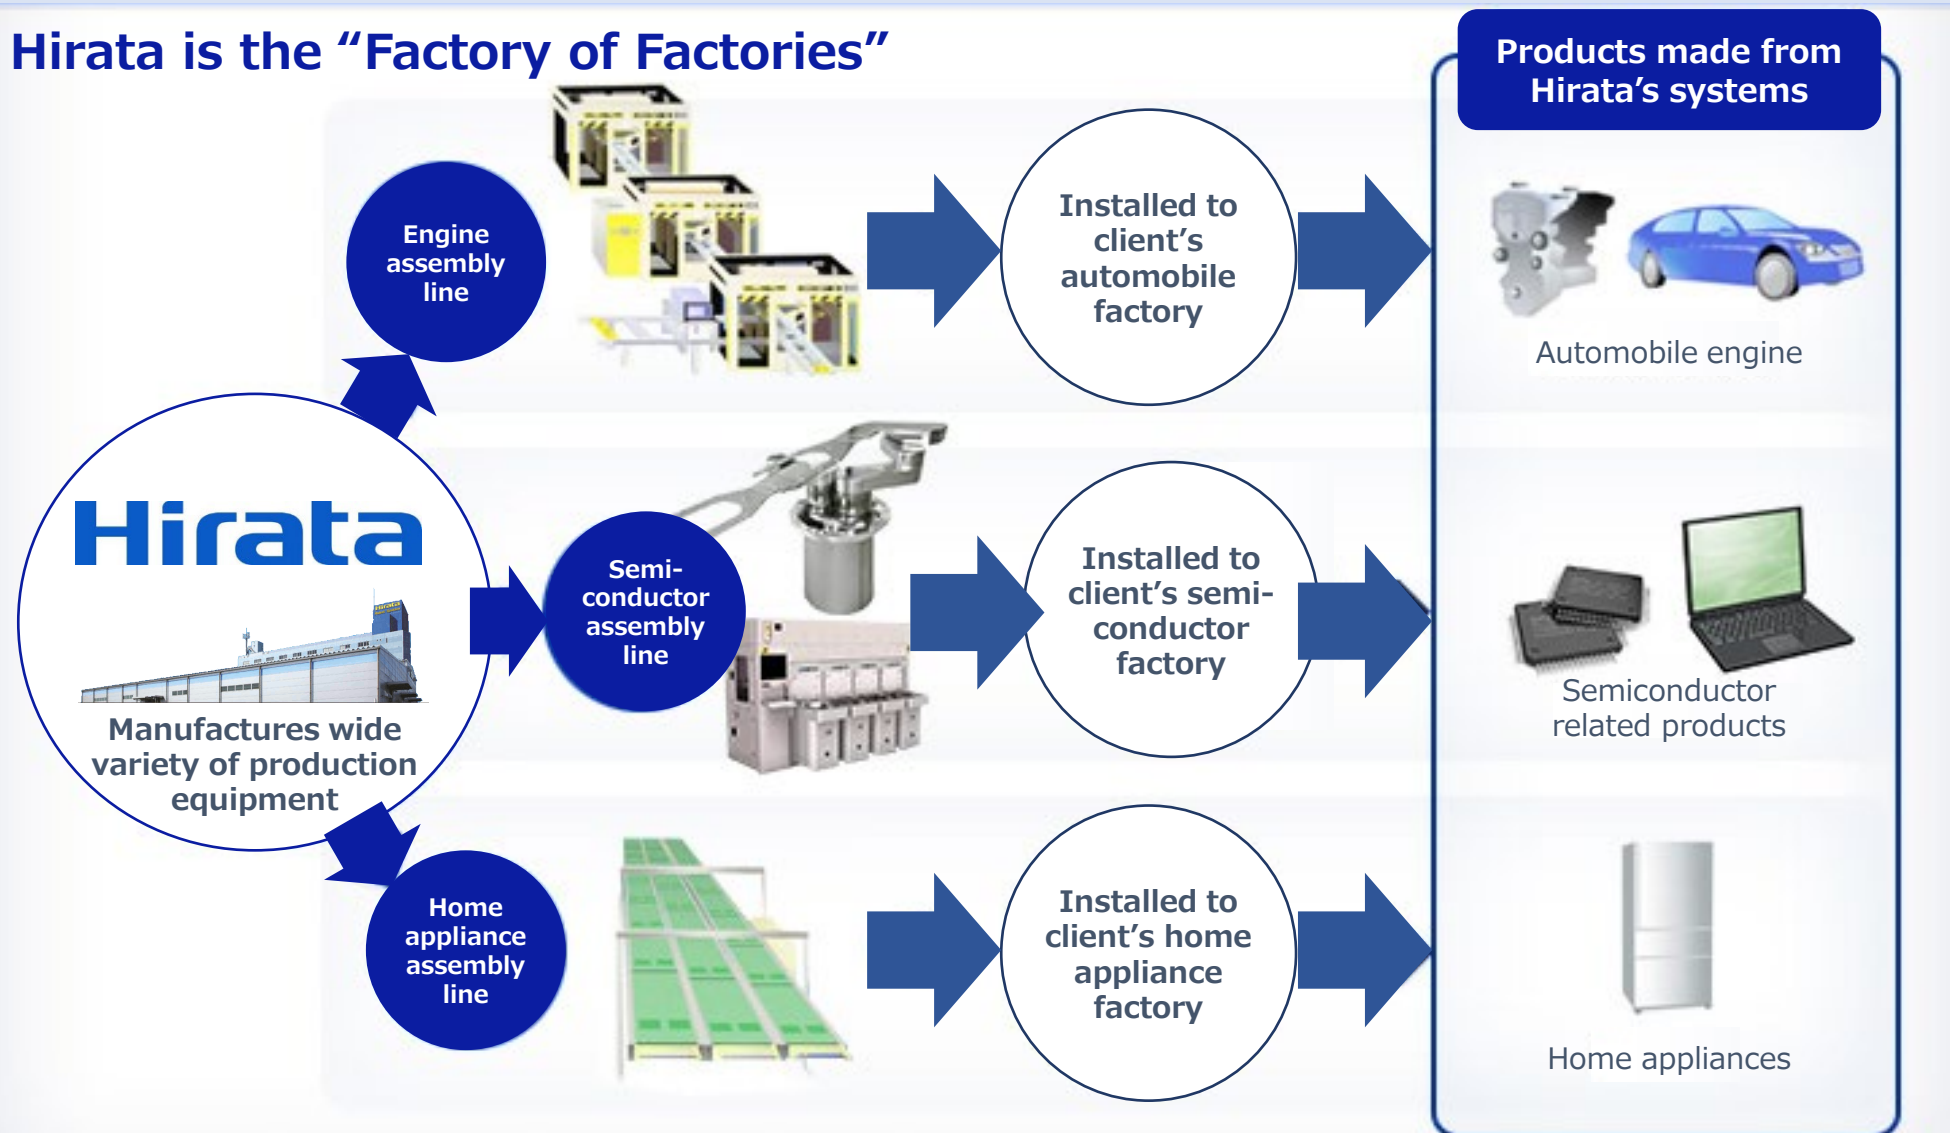

Primary customers

- Domestic manufacturing device manufacturer
- Asian home appliance manufacturer
- Domestic medical specialty manufacturer
- etc.

At Hirata, we design, manufacture, and sell “production equipment” for various products.

Hirata is the “Factory of Factories”

Note: The figure above is examples of our major production facilities. The appearance of production facilities and products may differ from the actual ones.

An example of Hirata's production engineering systems installed at a customer's factory

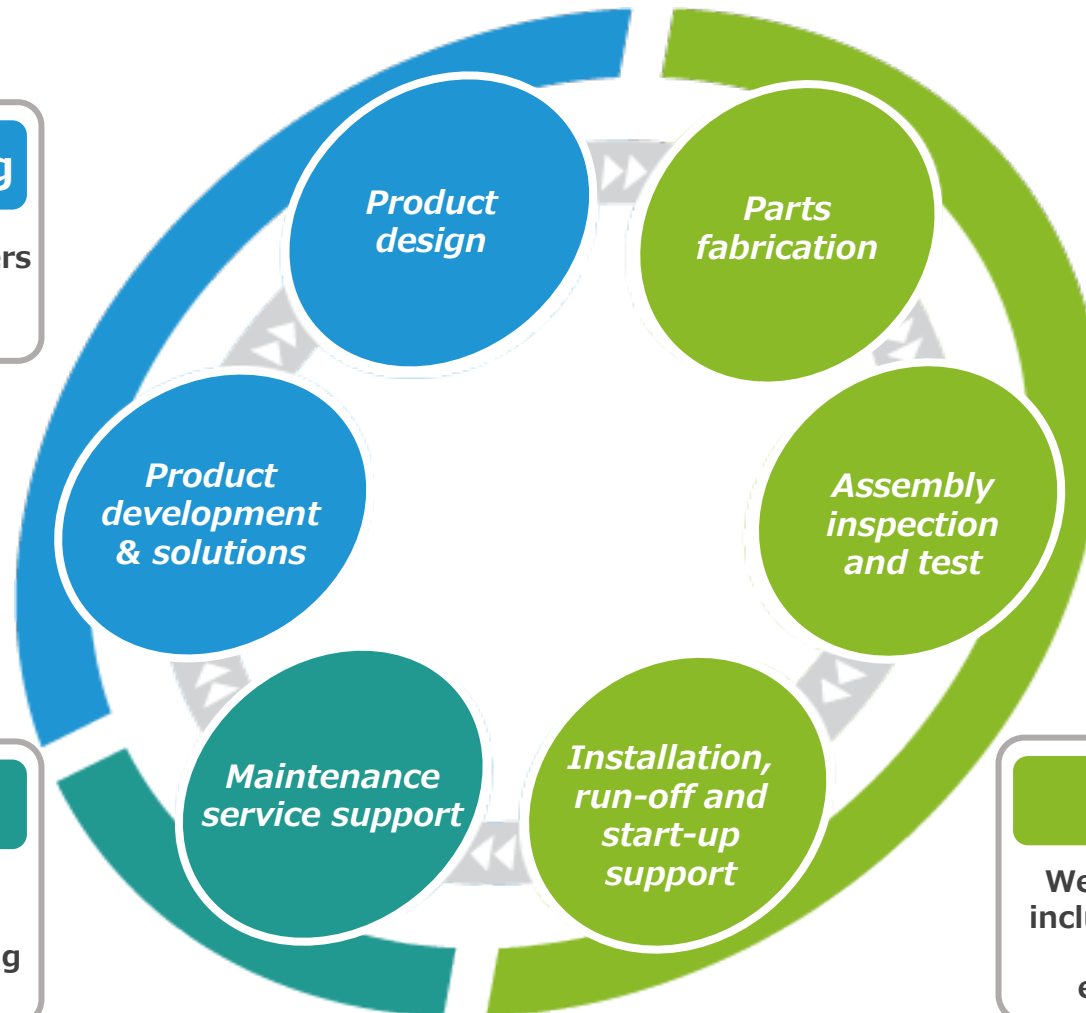

As a systems integrator, we dedicate ourselves in fully understanding each client's operations, providing optimized solutions for our client's individual business requirements, from all aspects including product design to installment, maintenance and after sale services.

Our in-house capabilities ensure smooth and comprehensive communication throughout our engineering/manufacturing process, delivering reliable high-quality equipment on a timely basis.

Production Engineering

We work closely with our customers to meet each client's specific production needs and demands.

Support

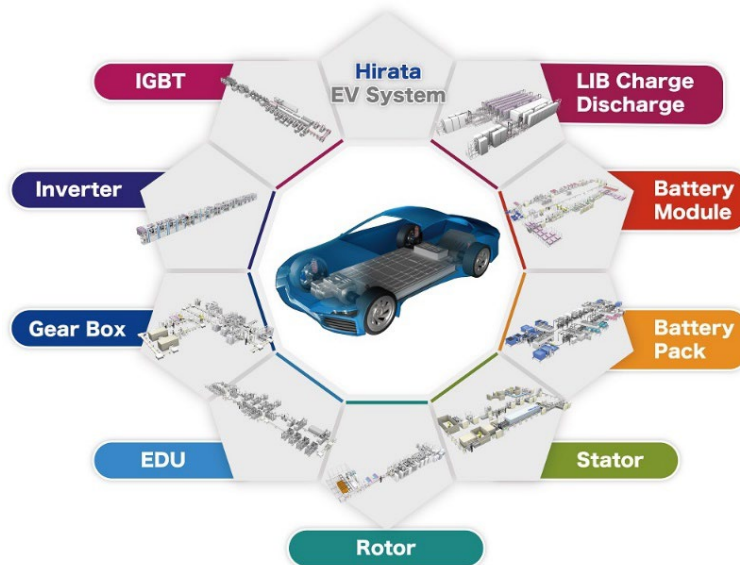

We provide timely services from production plants and service centers around the globe including the US, Europe and Asia.

Manufacturing

We build/manufacture in-house, including product components and parts, making possible cost efficient and timely delivery.

Automotive

- EV related production systems
- Engine, transmission production systems
- Automotive component production systems
- Reflow oven and mounters for hybrid drives

Hirata EV Systems

EV-related production systems

Semi-
conductor

- Wafer transfer robots
- Load Port(FOUP opener)
- EFEM, Sorter, Aligner

EFEM/Sorter

Load port for FOPLP*

Wafer transfer robots

Vacuum platform

Aligner

Other automatic labor-saving equipment

- Industrial robots
- Commissioning manufacture of organic EL panel and vacuum evaporation systems
- Factory Automation component sales
- Home appliance production equipment
- Medical, Chemistry & Physics devices

Vertical articulated robot

Deposition equipment for OLED

Electric stopper

Coater systems

Smart rack-less stocker

Pathological tissue specimen
Preparation device EZ-path float
